PICTORIAL HISTORY

THE UNITED STATES,

ROM the discovery of America by the Northmen to the present time.—By John Front, Professor of Belies Lettres of the High School of Philadelphia.—Embelished by upwards of three hundred original cuts, designed by Croome expressly for this work.—Now in progress of publication, and to be completed in twenty monthly numbers, at the unparalleled low price of twenty-five cents each; the whole forming four octavo volumes.

whole forming four octave volumes.

A full and copious History of the United States for families and libraries, has long been called for by the American people: the publisher has now the pleasure and satisfaction of presenting to the public such a work. It is the result of years of study and research by one of our ablest writers: and in order that the noble deeds and striking scenes connected with our history may be properly depicted, the publisher has engaged the services of a superior and distinguished artist.

In carrying out this undertaking a great investment

In carrying out this undertaking, a great investment of capital has been required, and much mechanical skill emp oyed to render it a work worthy of the admiration of every lover of his country; and one to which every patriot may point as an evidence of the great degree of perfection and refinement our liberal institutions have secured us.

The first number appears this day, (April 1st); the succeeding ones will appear promptly on the first of each month until the whole is perfected. At the conclusion of each volume, a complete index and title

The publisher pledges himself that the embellishments in the whole work shall exceed three hundred The publisher pledges himself that the embetishments in the whole work shall exceed three hundred, and equal those in the first or specimen number in style and execution. The distribution of the pictures will of course be regulated by the subject, some chapters being much more susceptible of rich pictorial embellishments than others. The succeeding parts will contain the same number of pages as this. Persons at a distance, who are desirous of obtaining this work direct from the publisher, will please remit five dollars, free of expense of postage, (Postmasters' franks can always be obtained for realitances for periodicals.) and the whole will be sent.—Clubs, by a remittance of ten dollars, will receive three copies; by a remittance of fitteen, five copies. Postage of each number, under an hundred miles, four and one-half cents; upwards of an hundred miles, seven and one-half cents.

Individuals desirous of acting as agents for this work, are advised to make application.

W ILL be published, in the City of Washington, by the 20th of April, the first number of the weekly

"GERMAN NATIONAL GAZETTE," a newspaper devoted to the political, social, and literary in erests of the day. Terms: Per annum §2 00, strictly in advance. A number of correspondents in Europe, amongst them some of the ablest German writers of the day, are engaged for the paper, which will also contain English articles.

In connection with the above is published the monthly.

"GERMAN IN AMERICA,"

of mammoth size, now the largest paper in the Union. The eighth number will be issued on the 1st of May. Terms: §1 50 per annum, in advance. Both papers sent to one address for §3 60, in advance. The "German in America" is a paper principally of a literary character, and intended to he an interpreting medium between the literary genius of the Saxon and Anglo-Saxon race. It will exhibit some of the best literary product ons, especially poetical, in cash language, with parallel versions in the other. To those therefore of the English-American public, who are studying the German language, or wish to become familiar with German language, or wish to become familiar with German literature, this paper is strongly recommended. It contains a complete list of all books, periodicals, etc, published in Germany. Business men who deal, or wish to deal, with the American population of the German tongue, will find it greatly to their advantage to advertis in this paper. It has already acquired a circulation which extends over the whole Union, the contiguous South, Canada, and Germany, and by far exceeds that of any other German paper in the Union—its tendency being not of a local, but of a universal character. Besides this, the rates of advertising in both papers are exceedingly low, so as to a nable every body to advertise who can be profited by it.

If Publishers will oblige by early communicating copies of new publications which will be critically noticed. We intend to furnish the German public here, and on the other side of the Atlantic, with a complete review of all productions of the American press worthy of notice.

CONSUMPTION CANNOT BE CURED!

Those who say it can are imposters and quacks. Still it may be prevented or its progress stayed, by using Dr. Peters' Cough Lozenges. Begin in season. Do not neglect a slight cough until consumption has commenced its ravages. A delay of a few days often prove fatal. Price 25 cents per box.

Peters' Cough Lozenges have performed some of the most remarkable cures on record. One trial of thom is more satisfactory than a column of certificates.

THE GREAT OBJECT GAINED!

THE GREAT OBJECT GAINED:
Peters' Medicated Lozenges are the most valuable discovery of the 19th century. They are entirely pleasant to the taste, and more efficient than any other medicine. These Lozenges are the result of long continued and patient investigation and experiment, conducted in concert by some of the most distinguished physicians in the Union, who believing that some of the best known remedies might be prepared in a palatable form, have directed their labors to that end, till they have produced preparations in the popular form of Lozenges for nearly every disease incident to the human system.

TO THE WHOLE WORLD. It is admitted by all who have used them, (and who has not?) hat Dr. Peters' Vegetable Pills are the most unrivalled medicine ever discovered by the ingenuity of man. They are a sovereign cure for the following complaints:—Yellow and billious fever and ague, croup, liver complaint, sick headache, jaundice, asthma, dropsy, rheumatism, enlargement of the spleen, piles, colic, female obstructions, heartburn, furtongue, nausea, distension of the stomach and bowels, incipient diarrhes, flatulency, habitual costiveness, loss of appepite, blotched or sallow complexion, and all cases of torpor of the bowels, where a catharic or an aperient is needed.

WORM LOZENGES.

Dr. Peters' Worm Lozenges are the surest and safest worm destroyer ever discovered.

It is estimated that, in the United States, 100,000 children die yearly from the effect of worms alone. This vast mortality can be almost entirely prevented by the use of Peters' celebrated Lozenges. Thousands and tens of thousands pine away and die without ususpecting the real disease. This Glass is made from white flint send, obtained in the vicinity of the works, and is the only Crown Glass made from that species of sand. It is capable of standing every change of climate, not will it lose its lustre by age.

The Redford and Saranac Crown Window Glass are distinguished from ordinary Glass by the une monon evenness and beauty of surface, the superior transparency and lightness of color, the great trickness, and the general excellence of the materials which compose them. The surface not being pullahed after being blown, retains the enamel, brilliancy, god bardness, and is not subject to the objection so offen applied to Plate Glass, or being easily defaced and permanently bedinamed by dust, being made of extra thickness, will, without injury, withstand vicent winds, had storms, jury of cumon. &c. Its use, in the end, will prove more ecanomical, independent of its adding so much to the beautiful appearance of buildings.

Specimens of this deservedly popular Glass may be seen in the New York Exchange and Custom House, Howard's Hotel, Branson's Buildings.

A MERICAN CROWN WINDOW GLASS-manufactured in the village of Redford, county of Clinton, and State of New York.

To the Redford Crown Glass has been awarded the first Premium of the American Institute in the city of New York for five successive years, and has revived a gold medal in commendation of its superior merits.

This Glass is made from white flint sand, obtained

Specimens of this deservedly popular Glass may be seen in the New York Exchange and Custom House, Howard's Hostel, Bronson's Buddings, Broadway, Centre Markot, and a great many private residences and stores in various parts of the city; also, in the Exchange and Custom House, Boston; Girard College, Philadelphia; Exchange Hotel, Baltimure; in the public buddings at Washington city; the Capital at Raleigh, North Carolina, and in many both pablic and private edifices throughout the United States. It has been used in a great number of steamboats and railroad cars, and given entire satisfiction. It is be ieved that the above will suffice to prove that this Glass stands pre-eminent, and that it deservedly merits the approbation of builders and consumers of Glass.

The Saranac Crown Glass is most used in stree and buildings of the second order, green houses, &c.

The Saranac Crown Glass is most used in steres and buildings of the second order, green houses, &c. where strength and clearness are particularly desired, and will range about 33/d per cent cheaper than Redford. The double thick was is always used for highthouses, and is taken by the true economist for sky lights, steamboats, ships cabin windows, &c.

Ground Glass for sky lights, churches, and artists windows, furnished to any pattern or size. The Glass is carefully packed in stout boxes, nailed, and secured so as to be transported with safe y to any part of the United States.
